

Experiment 6: To Study the effect of Secondary Structure elements on CD spectrum of proteins.

Select One of The Pure Secondary Structures among
(1) Helix
(2) Sheet or
(3) Coil

Select any one additive among
(1) 10% Sodium Dodecyl Sulphate
(2) 8M Urea and
(3) None

Measure The CD Spectra

Compare it With Standard Spectra of Pure Secondary Structures

Ask User to Investigate the Reason of Deviation by
